STUDENT SUMMARY

B.Tech CSE (Data Science) undergraduate with strong foundations in Data Structures & Algorithms, Object-Oriented Programming, and Modular Web Development. Solved 850+ problems on CodeChef (2-Star) and 300+ on LeetCode, demonstrating strong analytical problem-solving skills. Experienced in developing responsive, scalable web applications using React.js, JavaScript, modern CSS, REST APIs, and databases. Passionate about clean code, modular design, collaborative engineering, and continuous learning in cloud technologies.

EDUCATION

ABES Engineering College , Ghaziabad <i>Bachelor of Technology in Computer Science & Engineering (Data Science)</i>	<i>Sept 2023 – Jul 2027</i> SGPA: 7.85 / 10.0
Gautam Public School , Ghaziabad <i>Intermediate (Class XII)</i>	<i>Mar 2022 — 88.4%</i>
<i>High School (Class X)</i>	<i>Mar 2020 — 92.0%</i>

TECHNICAL SKILLS

- **Programming Languages:** C++, Python, C
- **Web Development:** React.js, HTML5, CSS3, JavaScript, Bootstrap, Tailwind CSS, REST APIs
- **Databases & Analytics:** MongoDB, MySQL
- **Developer Tools:** Git, GitHub, VS Code, Postman
- **Core Competencies:** Data Structures & Algorithms, Object-Oriented Design, Modular Software Design, AWS

PROJECTS

V Gyan Institute – Online Learning Platform — <i>React.js, JavaScript, HTML5, CSS3</i> <i>Responsive Course Management Web Application</i>	[Live Demo] [GitHub] — 2025
--	--

- Engineered a responsive multi-page course application featuring dynamic course filtering, instructor dashboards, and interactive forms.
- Built 15+ reusable React components and optimized routing with React Router, cutting page latency by 30% and improving code maintainability by 40%.
- Integrated client-side form validation and robust event handling to ensure structured, error-free user input processing.

Grocify – Online Grocery Ordering Platform — <i>React.js, JavaScript, HTML5, CSS3</i> <i>Responsive E-Commerce Single Page Application</i>	[Live Demo] [GitHub] — 2024
--	--

- Developed an e-commerce platform with real-time product search, dynamic category filtering, and persistent shopping cart workflows.
- Designed modular architecture with reusable React components, reducing development cycle time by 35%.
- Implemented code splitting and lazy loading for optimized rendering, achieving an 85+ Google Lighthouse audit score.

COMPETITIVE PROGRAMMING & ACHIEVEMENTS

- **CodeChef: 2-Star Coder**; solved 850+ problems (300+ day streak); Global Rank 249 in Starters 256.
- **LeetCode**: Solved 300+ problems focused on algorithms, data structures, and optimization.
- **HackerRank**: Earned 5-star badges in both C++ and Python domain proficiencies.
- **Certifications**: FutureSkills NASSCOM EDA — AWS Cloud Fundamentals — Deloitte Data Analytics.

ADDITIONAL INFORMATION

- **Problem Solving & Collaboration**: Strong analytical thinking with active experience in team projects, modular design, and peer code reviews.
- **Languages**: English (Professional), Hindi (Native).
- **Continuous Learning**: Continuously expanding technical expertise across modern Web Development, Cloud Computing, and Data Science technologies.
